## A warm welcome

There are a lot of new things surrounding the birth of a child or - if you already have children – things that are new again for you.

As part of a welcome visit, you can therefore obtain information on topics relating to child development, education, health care, child- and family-friendly services and facilities from various organisations in our city. If required, we can also put you in touch with counselling and support services.

Every family in Unna that has a new baby therefore receives a greetings card from our family office with an appointment for a welcome visit. This appointment is announced well in advance and only takes place if desired by the parents.

Early help from the family office
